Meet Our Founder

Syauqi Robbani started his career as a banker in Malaysia and Indonesia. In 2018, he founded Edelweiss Hospital with his business partners, expanding the chain to 3 hospitals and 2 clinics in 2024, where he currently sits as Chairman. In 2023, he furthered his master's degree at Harvard University. His profound passion for education, based on his academic experience at Harvard, inspired him to establish Kreativa Global School. He has a vision that the younger generation has a strong academic foundation in STEM (Science, Technology, Engineering, and Mathematics), enriched with Islamic values and character development, to nurture resilient and capable future leaders.

Vision

Nurturing lifelong learners with global competence, strong character, and Islamic values to lead with impact.

Mission

- Partnering with parents in their role as the primary and lifelong educators.
- Empowering teachers as role models who inspire learning and character.

Curriculum

Kindergarten	Primary
Our program is inspired by the IB Approach & Montessori , integrated with Kurikulum Merdeka Fase Fondasi , and grounded in Islamic values .	We combine the Cambridge Primary Curriculum , the IB Approach , and Kurikulum Merdeka , along with Islamic and Quranic Studies .

Phase in Learning Language

There are two important stages in learning language for kindergarten and primary level, namely language acquisition and linguistics acquisition. The following timeline depicted the phase of those two stages immersed in Kreativa Global

K1, K2, 1st 2nd and 3rd Grade

Language Acquisition

Natural process of learning a language, Including vocabularies and basic conversation

4th and 5th and 6th Grade

Linguistic Acquisition

A more Structured or formal approach to learning language skills, including reading comprehension and basic grammar
